will SIAEWICKER

The Subject of reference dispatch has been proposed by CARBOHYDRATE as a potential penetration within the headquarters of the Ministry for State Security. We intend to approach him through a German cut-out as yet unselected, and we are considering offering him a monthly salary of 800 West Mark. We deem this to be necessary, faced, as we are at present, with no other leads of interest in the Ministry. If this original penetration should prove successful and enables us to become more selective with regard to future leads, we may be in a position to attain our ends at a smaller initial cost, but we are of the firm opinion that during the initial phase sizeable material inducements will have to be held out.
